

17 March, 2022

Subject: Material Compliance to EU Directive 2015/863/UE, Restriction of Hazardous Substances (RoHS).

To whom it may concern:

This is to confirm compliance of AMPCO METAL S.A. supplied alloys with the above mentioned EU Directive. With the exception of some leaded tin bronzes, particularly CDA 932, all of our alloys contain less than the 4 % by weight lead. The other elements specified by the Directive are not applicable to our alloys.

A handwritten signature in blue ink that reads "Aline Aguiar".
